| Marlborough | Careers in Construction      | This session is designed to raise awareness around the vast array of careers available for people in highways construction irrespective of academic attainment, age, gender and interests.                                                                                                                                                                                                                                                                                                                                                               | Construction & Infrastructure | Autumn Spring and Summer availability                                                                                                                                                                                                                                                                                                                 | In School                  | 1 hour                                | Workshop & Talk          | Construction and Infrastructure                 | 30                      | Suitable for KS3, KS4 and Post-16 students. | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a>              | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |
| Marlborough | Insight into Apprenticeships | This session is designed to raise awareness around what an apprenticeship is and how they work in practice. This session explains the roles of the apprentice, the employer and the training provider. Gives the students a chance to meet some of our apprentices first-hand and includes myth busting exercise and student Q&A.                                                                                                                                                                                                                        | Construction & Infrastructure | Can be delivered throughout academic year. National Apprenticeship Week this year runs from Monday 08 February – Sunday 14 February 2027. Best delivered from National Apprenticeship Week onwards until end of summer term as apprenticeship vacancies for young people are often advertised throughout the summer months for September start dates. | In School                  | 45 mins -1 hour                       | Workshop & Talk          | Construction and Infrastructure                 | 30                      | Suitable for KS4 Students.                  | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a>              | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |
| Marlborough | Road Safety                  | Road safety is an integral part of our business and we use these sessions to raise awareness and promote the safe use of highways and footways by all road users. These sessions primarily focus on pedestrian road safety by teaching the students the rules of the road, the different types of crossing points and embedding the STOP, LOOK, LISTEN, THINK rule before crossing a road. Contains interactive elements – road safety song and opportunities for students to practice the STOP, LOOK, LISTEN, THINK rule while crossing a pretend road. | Construction & Infrastructure | National Road Safety Week this year runs from Sunday 15 November to Saturday 21 November. Best delivered in the lead up to Road Safety week and throughout the winter terms.                                                                                                                                                                          | In School                  | 45 mins -1 hour                       | Workshop/ Task           | Construction and Infrastructure                 | 30                      | Suitable for EYFS & KS1 students.           | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a>              | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |

| Marlborough | Importance of STEM subjects              | This session encourages the study of STEM subjects by explaining how important these subjects are to the various careers in our industry.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Construction & Infrastructure | Autumn Spring and Summer availability                                           | In School | 45 mins -1 hour        | Workshop/ Task | Construction and Infrastructure | 30     | Suitable for KS2 & KS3 students.      | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a> | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |
| Marlborough | Sustainability Workshop                  | These sessions are designed to champion sustainability and the environment. We explain the steps we are taking to make our business and industry more sustainable and give advice on how we can all be more sustainable and support the environment in our everyday lives.                                                                                                                                                                                                                                                                                                                                                                                             | Construction & Infrastructure | Autumn Spring and Summer availability                                           | In School | 45 mins -1 hour        | Workshop/ Task | Construction and Infrastructure | 30     | Suitable for KS2, KS3 & KS4 students. | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a> | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |
| Marlborough | Name the Gritter Competitions            | We deliver winter service in RBWM and give students the chance to name our gritting lorries. We visit the school to launch the competition by explaining who we are, what winter service is and how we keep the roads safe during the winter months. We provide a colouring sheet of our gritters for the students to colour and name (they can do this in school or at home). We then return a week later to collect the colouring in sheets and pick the winning entries. Once our gritters have been sign written with the names on we will return to the school with the gritters to announce the winners and show the students our gritters with their new names. | Construction & Infrastructure | Competition to be delivered by end of November so gritters can be sign-written. | In School | Assembly/ school event | Task           | Construction and Infrastructure | 30     | Suitable for KS2 students.            | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a> | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |
| Marlborough | Careers/ Apprenticeship Fairs Attendance | Marlborough may be able to support school or college events such as careers fairs, apprenticeship events                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Construction & Infrastructure |                                                                                 | In School | Event                  | Visit          | Construction and Infrastructure | Varies | KS3                                   | <a href="#">Jobs at Marlborough Highways   Marlborough Highways Careers</a> | <a href="mailto:Nula.Krawczynski@Marlboroughhighways.co.uk">Nula.Krawczynski@Marlboroughhighways.co.uk</a><br><br><a href="mailto:Poppy.Sargeant@Marlboroughhighways.co.uk">Poppy.Sargeant@Marlboroughhighways.co.uk</a> |

|     |                             |                                                                                                                                                                                                                                                                                                                                                                                     |                         |                 |           |            |          |                                       |    |        |                                                                             |                                                  |

| SSE | <b>Weathering the Storm</b> | Students are tasked to build their own overhead lines out of string, lolly sticks and blue tack with the knowledge that a 'storm' (in the form of a hairdryer) will come along later in the session to test their designs. We talk to students about what the reality of storms on our network look like, how we respond in those scenarios and how we design to ensure resilience. | Energy & Infrastructure | Spring & Summer | In School | 60 minutes | Workshop | Energy, Construction and STEM Careers | 30 | 11+    | <a href="#">Careers at SSE   The UK and Ireland's clean energy champion</a> | <a href="mailto:LCD@sse.co.uk">LCD@sse.co.uk</a> |
| SSE | <b>Subsea</b>               | Students work in teams to design a mock subsea cable lay in a paddling pool, complete with faux grass, boulders and sharks. Students are tasked to think about the best path being mindful of the environment and ultimately cost.                                                                                                                                                  | Energy & Infrastructure | Spring & Summer | In School | 60 minutes | Workshop | Energy, Construction and STEM Careers | 30 | 11+    | <a href="#">Careers at SSE   The UK and Ireland's clean energy champion</a> | <a href="mailto:LCD@sse.co.uk">LCD@sse.co.uk</a> |
| SSE | <b>Powerpack Pals</b>       | A workshop designed for younger students (generally primary school age) focused on safety around overhead electricity lines, students are asked to define hazards and play interactive games through our online learning platform to explore the network.                                                                                                                           | Energy & Infrastructure | Spring & Summer | In School | 60 minutes | Workshop | Energy, Construction and STEM Careers | 30 | 5 - 11 | <a href="#">Careers at SSE   The UK and Ireland's clean energy champion</a> | <a href="mailto:LCD@sse.co.uk">LCD@sse.co.uk</a> |
